

HIGHER EDUCATION PREPARATION

MANAGING YOUR MONEY

1

GET A STUDENT BANK ACCOUNT

Exclusive to higher education students, these are designed to help you with the costs associated with your studies.

A range of **banks** and **building societies** offer **student bank accounts** with different **terms** and **benefits**, so it is important to identify the **best option for you**.

THINGS TO CONSIDER

INTEREST-FREE OVERDRAFT

This allows you to **borrow extra money**, so that your balance goes below zero, **without being charged**. Although debt is generally not a good thing, an **interest-free overdraft** via a **student bank account** is an **excellent buffer** in case of **emergencies**. **Make sure to not go over your agreed limit**, otherwise you will incur **charges**. Upon **completing your studies**, you will be switched to a **graduate account** and your interest-free overdraft will typically be **reduced over time**.

FREEBIES

Although an **interest-free overdraft** is the **most important thing** to consider, some banks and building societies may also offer **incentives** such as **travel discounts**, **cash rewards** and other **“exclusive” deals**.

CREDIT CARDS

This **may be tempting**, however using these runs the **risk of being charged interest** and **creating debt** which, particularly as a student, can be **challenging to repay**.

BRANCHES

Having your bank or building society **located near your college or university campus** can help with managing your money.
