

Job Title: Junior Engineer
Location: Salfords, Redhill
Salary/Package: Dependent on experience

Who are SteriTech?

We supply reference level process manufacturing equipment from our European principal suppliers to top tier pharmaceutical manufacturers in the UK and Ireland. We are technical experts in our field and have grown significantly over the years.

What is the purpose of this role?

We have an exciting opportunity for a Junior Engineer. Reporting to the Technical Support Manager, the Junior Engineer will work closely with our Field Operations and Parts & Logistics teams whilst on a path to becoming a fully-fledged member of our Operations Team. The role is practical, technically focussed and will involve plenty of travel as the junior engineer gains the experiences and training necessary to ultimately become a Field Operations Engineer.

What makes this role unique?

Initially the role will be based in our Salfords office, however the successful candidate will be required to travel to our customer sites throughout the UK and Ireland as and when required.

Once experienced in the Field Operations role there is further opportunity for those that have the acumen, attitude and skillset to become a technology specialist in a variety of areas, including C&Q, sterilisation and clean utilities.

What are we looking for?

- An engineering, technology, or science qualification (Level 4, HND or equivalent) would be advantageous but is not essential
- An understanding of basic controls technology, basic mechanical engineering and/or electrical engineering.
- Knowledge of sterile process technology and pharmaceutical industry would be useful - practical knowledge is as important as theory in our business
- Previous industrial experience
- Personable & well presented
- Excellent written and spoken English & communication skills
- Excellent time management and organisation skills
- Able to demonstrate proficiency with commonly used computer programs including MS Windows, MS Word, MS Excel, (working experience of CAD packages would be useful)
- A keen interest in technology and engineering
- High attention to detail
- Self-motivated to consolidate on formalised training through independent learning
- Able to work effectively and efficiently independently and as part of a team
- Flexibility to travel throughout UK, Ireland and Italy as required

- Valid UK driving licence is essential

We are an organisation that values diversity. Selection is based solely upon one's individual merit and qualifications directly related to professional competence.

Don't meet every single requirement? Studies have shown that women and people of colour are less likely to apply to jobs unless they meet every single qualification. At SteriTech we are dedicated to building a diverse, inclusive and authentic workplace, so if you're excited about this role but your past experience doesn't align perfectly with every qualification in the job description, we encourage you to apply anyway. You may be just the right candidate for this or other roles.
