

You can set security questions so if you forget your password you will be able to reset it yourself.

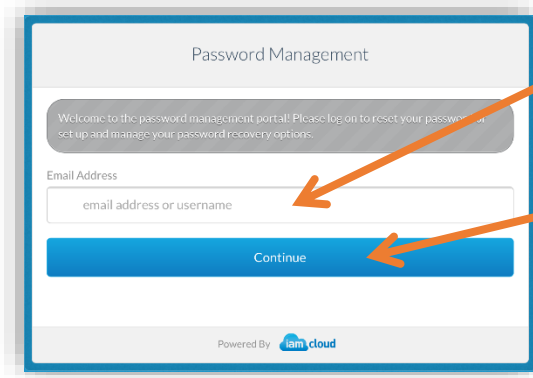

On the front page of CCGOnline select **Lost Password**

Then select the 'Click here to change password'

Click here to change password

Or directly through the webpage: <http://password.chichester.ac.uk>

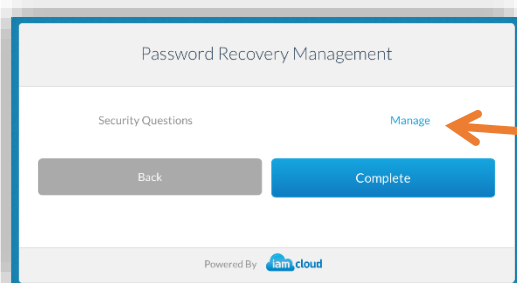

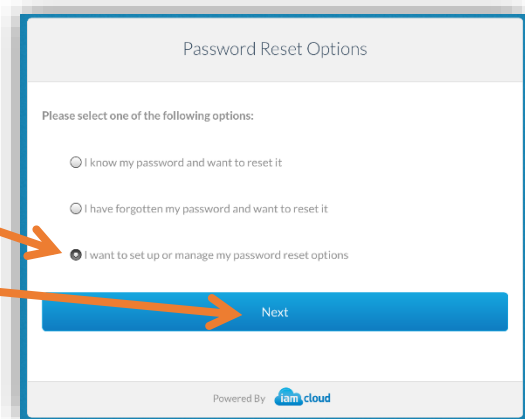

Enter your student email address

Click Continue

Select "I want to set up or manage my password reset options"

Click Next.

Select Manage

Security Questions

If you forget your password you can reset it yourself by correctly answering some security questions. Please provide your responses to the following questions.

Current Password
current password
