Job description

Rubber Extrusion Engineer (Setter)

Full time: 40 hours per week. (PART TIME AVAILABLE, SEMI FLEXIBLE DAYS AND HOURS, PLEASE ENQUIRE)

Mon – Thurs: 8am-5pm

Fri: 8am-2pm

(15 minute paid morning break and 30 Minute unpaid afternoon break MON-THU)

(20 Minute paid break Friday)

Hourly Rates:

- Over 21 £13.25 (Reviewed after 6 month probation period)
- 18-21: £11.50 Per hour (Reviewed after 6 month probation period)

Full Employment subject to successful completion of 6-month probationary period.

Overview: Working in a factory environment. Viking Extrusions are manufacturers of industrial silicone rubber products. As a setter you'll be required to set up and run machines producing silicone rubber extrusions. The role is ideal for hands on, practical individuals. Full Training Provided. We offer a flexible and relaxed atmosphere to work in.

Being an Extrusion engineer is the core of our business, Attention to detail is crucial.

Responsibilities of a Setter:

- Setting up Extruders.
- Producing Silicone Rubber Extrusions.
- Problem Solving and altering new die shapes.
- Thoroughly checking your own work and keeping extrusions within specified tolerances.
- Using tools such as pillar drills and lathes.
- Being able to work and communicate effectively with colleagues.
- Being able to work within given timeframes
- Abiding by Health and Safety requirements

Qualifications:

- Engineering background ideal. (but not necessary)
- An ability to communicate and work with other members of staff is essential.

Viking Extrusions is a friendly, staff-oriented place to work where personality matters just as much as ability. Over the first six months you will be trained by a member of staff and guided through all the processes.
